INVESTMENT IN CHILD

INVESTMENT IN CHILD

We will never ask ourselves why we give our children to study music, in vocal studios, drama groups, or dance groups. No, we are not trying to raise a great musician, artist, or dancer from our own child. We give our children to do the creative work realising that this will benefit them.

Dedication to culture is a brick, or maybe even a whole foundation for the development of our children as individuals. And this is true! Firstly, the child will be in business, secondly, the basics will remain for a long time, if not for the rest of his life, thirdly, we ourselves experience pleasure if our child can play the violin perfectly, perform a dance, or, for example, demonstrate an object of art made from clay with his own hands. Of course, every parent wants his child to be talented, cultural, versed in art and music trends. That is why parents invest in their own children, investing money in their creative education. Children often resist such education, and the parents can not possibly inspire them. It is very important for teachers and parents to have convincing arguments for children and teenagers.

INVOLVEMENT IN THE TEAM

STATUS OF TEACHER

STATUS OF TEACHER

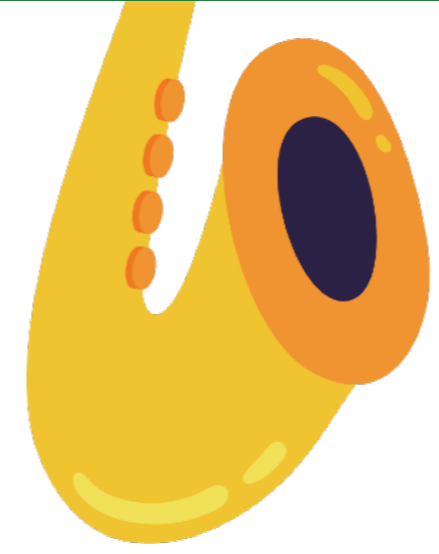

When choosing a choreographic studio for their child, parents should take into account such a factor as how often this studio goes to international competitions, what bonuses and trophies it brings from there.

If the studio often goes to international competitions, this indicates its serious status and professionalism of teachers. International festivals and competitions will help to captivate your child and motivate him, because they give you the opportunity to travel around the countries and always teach you to get to the victory!

THE PASSION SEEKS THE CHILD

INVOLVEMENT IN THE TEAM

THE PASSION SEEKS THE CHILD

The international contests provide an opportunity to be filled with enthusiasm and passion, which means that your child will be hardworking, which in the future will have a positive effect on its formation as a person.

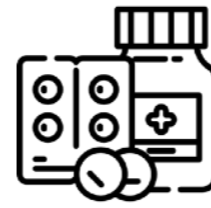

Without passion, life becomes boring and sad. Passion gives any person a strength that allows them to stand and not give up. The victory in international competitions would not be possible without dedication, perseverance and hard work, and this tempers your child!

INVOLVEMENT IN THE TEAM

MEDICAL SIGNIFICANCE

MEDICAL SIGNIFICANCE

Festivals and competitions have not only educational and motivational significance for children, but also medical.

Many parents mistakenly believe that children should experience a continuous feeling of happiness. In fact, the child must learn to experience negative emotions in childhood, for example, failing to win on stage, the child faces a certain kind of experience. But the concept of Fiestalonia contests developed by the best psychologists and art historians who worked in tandem, allows to perceive this failure as a success, and it is very important when becoming a child, or a teenager, to face them painlessly in adult life.

DISCIPLINE AND RESPONSIBILITY

DISCIPLINE --- AND RESPONSIBILITY

Because of the love of their children, parents often indulge their every whim.

As a result, the baby may become an adolescent who is unadapted to adulthood. How to grow a disciplined and responsible member of society, without cheating him in childhood care and love? It's not strange that international festivals and contests come to the rescue, because the work in a team, diligent rehearsals before leaving for the competition, develop discipline and responsibility to the whole team!

TRAVELING WITH CHILDREN -

DIVERGENCE OF INTERESTS

VS

TRAVELING WITH CHILDREN -

DIVERGENCE OF INTERESTS

As for traveling with children, many parents have probably already found certain difficulties, since the interests of parents and children more often are not the same. Can the trip be interesting for both parents and children at the same time? Not only can, but should. The international festivals and competitions helps to get a rest that will suit the parents and children.

While children are rehearsing, or are on animations under the eyes of professionals and teachers - parents can enjoy the time only for them. Relaxing on the beach, going to a restaurant, going on excursions, or shopping. And of course ... enjoy the performance of your own children! Be their as active fan and support group! After all, your support helps young artists to be the best among others!

INVOLVEMENT IN THE TEAM IMAGE

IMAGE

Participation in prestigious international competitions brings a positive reputation to participants, teachers and team leaders. The team representing your country as part of a festival significantly increases the image effect as a result of covering the event in the international media space.

KEEPING THE TEAM

JOINT TRIPS

JOINT TRIPS

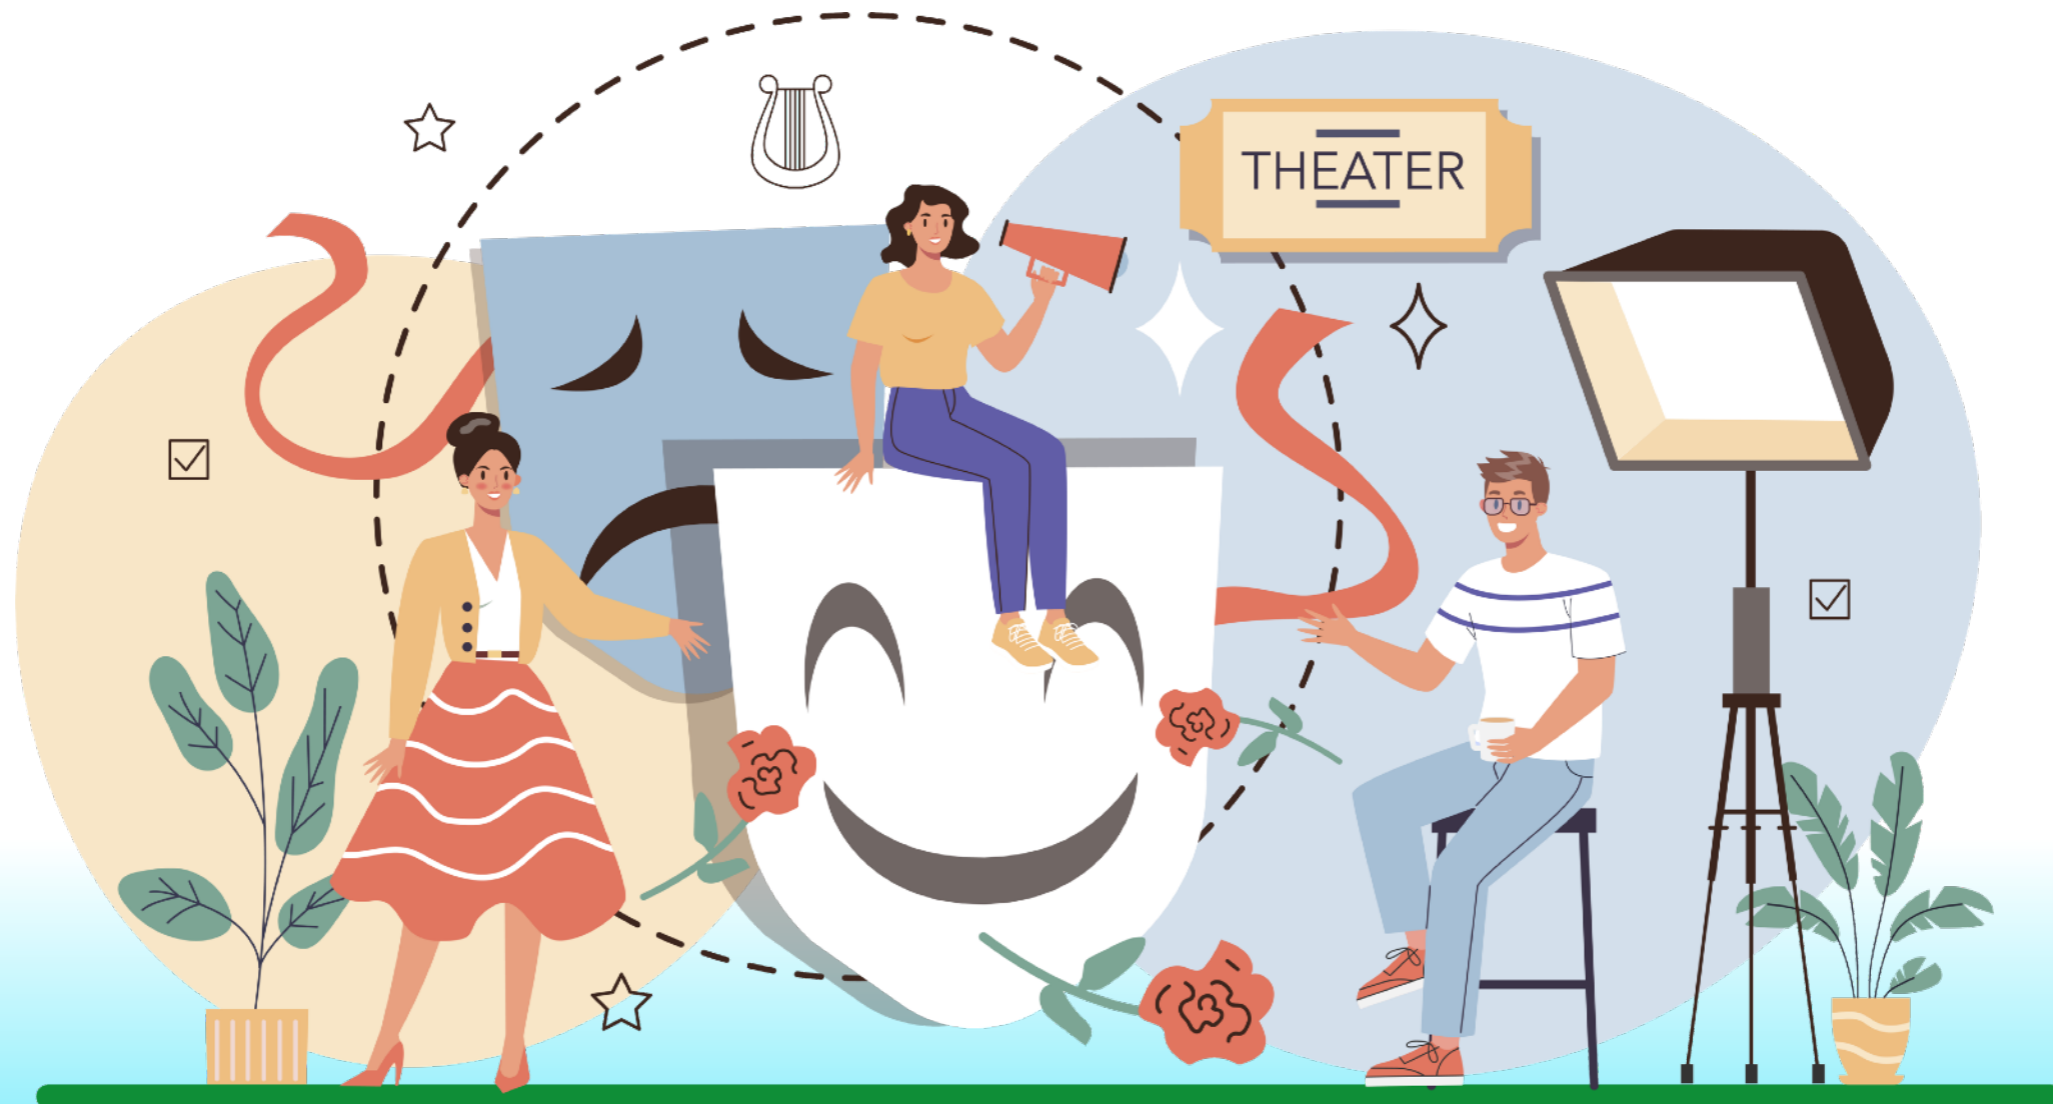

This kind of trips require an elaborate organisation. It is important to think about all the little things, to find a successful combination of various kinds of physical exertion and rest, which will allow to give a positive, emotional attitude, to bring joy to the children.

Tour trips form a sense of collectivism, responsibility, and combine cognitive and physical activity. Children learn to notice the interesting things: in the landscape, in those encountered on tourist paths, roots and branches of trees, stones, leaves. Without the love of nature - it is not possible to transfer creativity and understand art. It is very important when the team combines business with pleasure, and works on a single goal, for example: the boys go for firewood, and the girls cook the soup. It brings together :)

KEEPING THE TEAM

ACTOR SKILLS

ACTOR SKILLS

Acting skills in addition to the fact that the child carries away, it is absolutely necessary for all areas of art, whether it be playing the piano, choreography, vocal art, singing in the choir, or playing in the instrumental group. Charisma and the ability to stay on stage, to contact with the audience - absolutely it is important for everyone.

Children's psychologists practice dramatisation as a way to correct the psycho type or as a method of getting rid of various children's complexes, such as shyness, timidity, phobias and fears.

Timid and shy guys are often very talented and smart. But their natural shyness does not allow them to express themselves in society, their abilities remain unnoticed by others. This deficiency is perfectly adjusted with the help of such discipline as acting.

KEEPING THE TEAM

INVOLVEMENT IN WORK

INVOLVEMENT IN WORK

To join a team of students and their parents through involvement in common creative activities is essential.

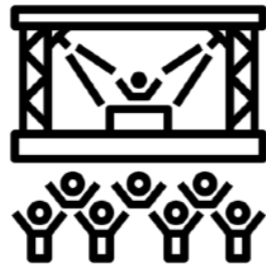

A highly developed team is characterised by a high level of cohesion, which contributes to the establishment of a positive psychological climate, a friendly background of relationships. The psychological state of each of its members depends on how friendly the team is. It is very important to involve children and parents in areas in which they are strong. Perhaps someone will create the site, photo reports, or the development of social networks.

KEEPING THE TEAM

THIS IS IMPORTANT FOR YOUR COUNTRY

THIS IS IMPORTANT FOR YOUR COUNTRY

The festivals are always - fascinating, open, passionate, bright with team spirit projects. This is an opportunity to introduce thousands of people around the world to your country, province, or city, create a positive image, and of course establish international contacts. Delegations of creative teams arriving from different countries are often headed by officials which serves to establish direct contacts in both the cultural and business spheres. We will also organise meetings of officials accompanying creative delegations with the mayors of cities hosting the baton festivals.

Participation in festivals and competitions organised by us, promotes the growth of respect and knowledge about other cultures, thereby guaranteeing a new quality of the common future of nations in a united world. You can always contact us and we will send a formal request for your support to the official authorities of your country.
